

DISC BRAKE PAD

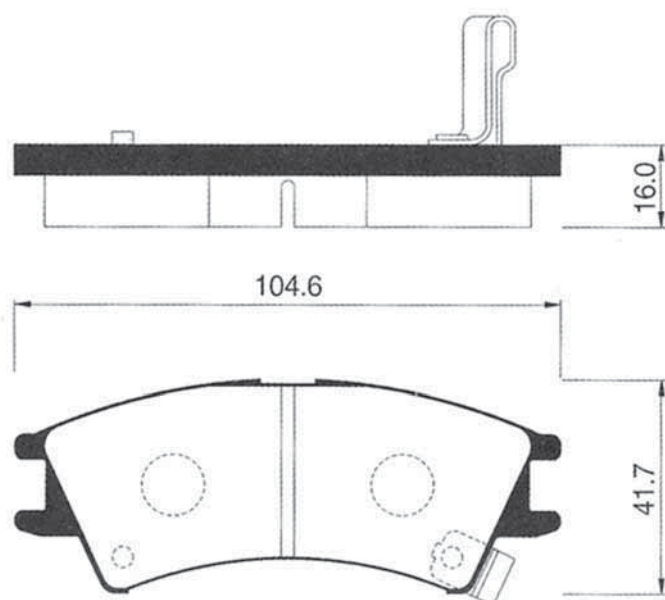

The comprehensive manufacturer of brake system proudly presents its brand YES-Q and HERACLON. They are produced by most advanced friction material production system to give steady and outstanding performance. YES-Q is high quality low-steel type which successfully improved weakness of Metallic and Semi-metallic types containing high amount of Steels. HERACLON is introduced to lead modern trends of advanced friction material technology. It is designed to be Environmentally-friendly and to reduce the stress on our body caused by repulsion of brake pedal. Special material such as Ceramic fiber, Carbon fiber and Aramid pulp will give great feeling and comfort of braking to the driver. E.S.Brake and its products have been certified by ECE-R90(E-mark), AMECA(USA), ISO9001 certification.
